The Collective Management of Copyright
(EU Directive) Regulations 2016

PART 3

Multi-territorial Licensing and Collective Management Organisations

Transparency of multi-territorial repertoire information

24.—(1) In response to a duly justified request a collective management organisation which grants multi-territorial licences for online rights in musical works must provide, by electronic means, to—

- (a) online service providers,
- (b) right holders whose rights it represents, and
- (c) other collective management organisations,

up-to-date information allowing the identification of the online music repertoire it represents (but see paragraph (3)).

(2) The information referred to in paragraph (1) includes—

- (a) the musical works represented;
- (b) the rights represented wholly or in part; and
- (c) the territories covered.

(3) In complying with paragraph (1) a collective management organisation may take reasonable measures, where necessary, to—

- (a) protect the accuracy and integrity of the data;
- (b) control their reuse; and
- (c) protect commercially sensitive information.
