

SCHEDULE 9

Regulatory signs at junctions and miscellaneous regulatory signs

PART 8

Provisions applicable to signs in Parts 2, 4 and 6

- 12.**—(1) When the marking is used, studs may also be placed.
- (2) The studs must incorporate—
- (a) red reflectors;
 - (b) red retroreflecting material; or
 - (c) a light source that emits, during the hours of darkness, a steady red light, or any combination.
- (3) The studs must be fitted at the side of, and adjacent to the solid line forming the boundary of the marking.
- (4) The external part of the stud that is visible when the stud is in place must be—
- (a) red
 - (b) white;
 - (c) of a natural metallic finish;
 - (d) of another neutral colour; or
 - (e) clear,
- or any combination (but see sub-paragraph (5) for an exception).
- (5) The external part of a stud that is visible when the stud is in place temporarily during road works must be fluorescent green-yellow except to the extent—
- (a) it consists of red reflectors or retroreflecting material; or
 - (b) it is necessary for it to be a different colour or clear in order for the stud to emit red light.
