7. Policy background

What is being done and why

- 7.1 Section 38 of the Immigration Act 2014 (“the Act”) enables the Secretary of State by order to provide for an immigration health charge to be imposed on those applying for leave to enter or remain in the UK for a limited period. The immigration health charge was introduced on 6 April 2015 by the Principal Order.
- 7.2 The immigration health charge of £200 (£150 for students) annually is payable by non EEA nationals who enter the UK for more than six months in a temporary capacity or who apply to extend their stay in the UK subject to certain exemptions listed in Schedule 2 to the Principal Order. Those who pay the immigration health charge can access NHS services free of charge subject to those charges UK residents must pay, such as for prescriptions and dental treatment in England.
- 7.3 Nationals from Australia or New Zealand were exempted from paying the immigration health charge, pending further consideration of reciprocal health care arrangements between our countries. During subsequent discussions with the Australian and New Zealand Governments, it was agreed that the immigration health charge should apply to nationals of these two countries, to bring them in line with other non-European Economic Area nationals, from April 2016.
- 7.4 During these discussions, it was also agreed to reduce the rate of the immigration health charge from £200 to £150 (in line with the student discounted rate) annually for Youth Mobility Scheme visa applicants. The Tier 5 Youth Mobility Scheme is a cultural exchange programme which allows young people aged 18 to 30 from participating countries and territories to experience life in the UK for up to two years. They can work and study during this time and individuals can only participate in the scheme once.
- 7.5 The concession to the Youth Mobility Scheme rate was agreed recognising that whilst in global terms this visa category represents a small proportion of total visa applications, it is the category used by the majority of nationals of Australia and New Zealand entering the United Kingdom for more than six months. This reduction to the immigration health charge for the Youth Mobility Scheme visa category will apply to all nationalities eligible to enter the UK on this basis.
- 7.6 This Order will enable the immigration health charge to be levied against nationals of Australia or New Zealand from April 2016 and reduce the amount for Youth Mobility Scheme visa applicants in line with the discounted student rate of £150 annually.
- 7.7 This Order also amends the cross reference in the exemption relating to visitor applicants to bring this up to date with changes made to the immigration rules in respect of this category of applicants.
