““F_y” (for any value y) means the percentage stated on the capacity market register under regulation 31(2)(f), at the date of issue of the capacity agreement, as the monthly penalty cap percentage for the capacity obligation CO_{yX} awarded in respect of CMU y for year X;

““G_y” (for any value y) means the percentage stated on the capacity market register under regulation 31(2)(f), at the date of issue of the capacity agreement, as the annual penalty cap percentage for the capacity obligation CO_{yX} awarded in respect of CMU y for year X;”;

- (c) omit the definition of “ $\sum SPPSA_{i(m-1)}$ ”;
- (d) insert after the definition of “MCP_{im}” —

$$\text{““} \sum_{k=1}^{m-1} MPSA_{ik} \text{””}$$

means the sum of the monthly penalty charges paid or payable in respect of CMU i for each of the months of year X preceding month M (or where M is the first such month, zero); and”;

- (e) insert at the end —
- ““tACP_N” has the meaning given in paragraph 3(3A)”.

New paragraph 6A

35. After paragraph 6 insert —

“Capacity provider penalty charges: apportionment

6A.—(1) Immediately after calculating SPPSA_{ij} for a relevant CMU i and any relevant settlement period j in month M under paragraph 6, the settlement body must also calculate D in accordance with the formula —

$$D = SPPSA_{ij} - SPPSA_{i(j-1)},$$

where “SPPSA_{i(j-1)}” is the settlement period penalty settlement amount for CMU i in the relevant settlement period preceding period j (or, where j is the first such period in month M, zero).

(2) For each relevant settlement period j in month M, the settlement body must then determine for each obligation ICO_{ij} applying to CMU i in that settlement period (“ICO_{ijN}”) —

- (a) the monthly penalty cap applying in respect of ICO_{ijN} (“MPC_{ijN}”); and
- (b) the apportioned settlement period penalty amount for ICO_{ijN} (“ASPPA_{ijN}”) as determined in accordance with sub-paragraph (4).

(3) For the purpose of sub-paragraph (2)(a), MPC_{ijN} is to be determined in accordance with the formula —

$$MPC_{ijN} = ICO_{ijN} \times PE_{zx} \times WF_{mx} \times F_z - \sum_{k=1}^{j-1} ASPPA_{ikN},$$

where —

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

“ICO_{ijN}” is the whole or a part of the capacity obligation CO_{zX} awarded in respect of CMU z for year X,

“PE_{zX}” means the price in pounds per MW determined for CO_{zX} in accordance with paragraph 3(4) to (6),

“F_z” is to be interpreted in accordance with paragraph 6(6), and

“
$$\sum_{k=1}^{j-1} ASPPA_{ikN}$$
”

means the sum of all apportioned settlement period penalty amounts calculated for ICO_{ijN} when that obligation applies to CMU i in any relevant settlement period in month M that precedes period j (or, where j is the first such period, zero).

(4) For the purpose of sub-paragraph (2)(b) ASPPA_{ijN} is to be determined as follows (where D is the result of the calculation referred to in sub-paragraph (1))—

(a) for each obligation ICO_{ijN} referred to in sub-paragraph (2), calculate PR_N in accordance with paragraph 5(3), and arrange those obligations in a series (beginning with ICO_{ij1}) as described in paragraph (b);

(b) each such obligation ICO_{ijN} is ranked according to the magnitude of its corresponding PR_N (in descending order with the highest corresponding penalty rate first), except that where the same penalty rate corresponds to more than one such obligation those obligations are ranked between themselves—

(i) according to the date on which the obligation was awarded in respect of CMU i, or transferred so as to apply to CMU i (with the latest such date first), and

(ii) for obligations awarded or transferred on the same date, according to the time at which a request to transfer the obligation was received by the Delivery Body (with the latest such time first), and with an awarded obligation ranking prior to any transferred obligation;

(c) then for any such ICO_{ijN}—

(i) if $\sum_{k=1}^N MPC_{ijk} > D$, $ASPPA_{ijN} = MPC_{ijN}$;

(ii) if $\sum_{k=1}^{N-1} MPC_{ijk} < D$ and $\sum_{k=1}^N MPC_{ijk} > D$, $ASPPA_{ijN} = D - \sum_{k=1}^{N-1} MPC_{ijk}$;

and
(iii) otherwise, $ASPPA_{ijN} = 0$.

Paragraph 7 (over-delivery payments)

36.—(1) In paragraph 7(1)(a), for the words from “relevant” to the end substitute “each relevant settlement period in year X (“ODR_{ij}”)”.

(2) In paragraph 7(2) and (3), for “ODR_{ix}” (wherever it occurs) substitute “ODR_{ij}”.

(3) In paragraph 7(2)—

(a) insert at the beginning “Subject to sub-paragraph (2A),”; and

(b) for “PR_{ix}” substitute “PR_{ij}”.

(4) After paragraph 7(2) insert—

“(2A) For the purposes of the calculation in paragraph (2), where the over-delivery payment is to be made to a qualified person who is not a capacity provider in settlement period j, the value of PR_{ij} is deemed to be equal to the penalty rate applying to a capacity obligation awarded in the T-4 auction for year X and calculated in accordance with paragraph 5.”

(5) In paragraph 7(5)—

(a) for the definition of “ PR_{ix} ” substitute—

““ PR_{ij} ” means the penalty rate in pounds per MWh applying to CMU i in respect of settlement period j, as calculated in accordance with paragraph 5”; and

(b) after that definition insert—
