2016 No. 765

The Air Navigation Order 2016

PART 5

Operations

CHAPTER 2

Operational rules for non-EASA aircraft

SECTION 2

Duties of Pilot in Command

Passengers to be seated and properly secured

71. The pilot in command of an aircraft other than a balloon must ensure that—
- (a) prior to and during taxiing, take-off and landing; and
 - (b) whenever deemed necessary in the interest of safety,
- each passenger on board occupies a seat or berth and has their safety belt or restraint device properly secured.
