EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the National Health Service (General Medical Services Contracts) Regulations 2015 (S.I. 2015/1862) (“the GMS Contracts Regulations”) and the National Health Service (Personal Medical Services Agreements) Regulations 2015 (S.I. 2015/1879) (“the PMS Agreements Regulations”) which make provision in respect of the services provided under a general medical services contract and a personal medical services agreement made pursuant to

(a) The “PCWT facility” is the approved internet webtool made available by NHS England to contractors for the purposes of submitting GP access data online.

Part 4 of the National Health Service Act 2006 (primary medical services). They apply to England only.

Part 2 of the Regulations amends the GMS Contracts Regulations.

Regulation 2 reduces the circumstances in which a provider of primary medical services must send a patient's medical records to the National Health Service Commissioning Board ("the Board") under regulation 67. It provides that where a patient dies or is removed from the contractor's list of patients without registering with another provider of primary medical services, that patient's medical records must be sent to the Board. Where a patient registers with another provider of primary medical services, that patient's medical records need only be sent to the Board if and to the extent that they are in paper form or if there is a technical error in the electronic transfer of those records, rather than in all cases as is currently required. Where a contractor terminates responsibility for providing services to a patient not on its list, it must send any records held in relation to that patient to the new provider, if it knows who that is, or otherwise must send the patient's records to the Board .

Regulation 3 amends regulation 68 to provide that a patient's Summary Care Record must be updated as changes occur, rather than on a daily basis.

Regulation 4 inserts a new regulation 74A to introduce a requirement for contractors with the appropriate computer systems to collect and submit to the Board such information about patient access to primary medical services as the Board may require.

Part 3 of the Regulations makes amendments to the PMS Agreements Regulations which are similar in nature to those made to the GMS Contracts Regulations by regulations 2 to 4 in Part 1.
