The Conservation of Offshore Marine
Habitats and Species Regulations 2017

PART 2

CONSERVATION OF NATURAL HABITATS AND HABITATS OF SPECIES

Site protection and management

Establishment of nature conservation objectives

21. As soon as is reasonably practicable after a European offshore marine site has been included in the register, the Joint Committee must—

- (a) establish conservation objectives for the site and notify those objectives to such competent authorities as it considers appropriate; and
- (b) advise such competent authorities as it considers appropriate of any operations which in its opinion may adversely affect the integrity of the site.
