#### Assessment of productive capacity of land

**2.—(1)** Paragraphs (2) and (3) have effect for the purpose of the assessment of the productive capacity of a unit of agricultural land situated in England in order to determine whether that unit is a commercial unit of agricultural land within the meaning of paragraph 3(1) of Schedule 6 to the Agricultural Holdings Act 1986.

(2) Where the land in question is capable, when farmed under competent management, of being used to produce any livestock, farm arable crop, outdoor horticultural crop or fruit as is mentioned in any of the entries 1 to 3 in Column 1 of the Schedule—

- (a) the unit of production prescribed in relation to that use of the land is the unit in the corresponding entry in Column 2, and
- (b) the amount determined, for the period of 12 months beginning with 6th January 2020, as the net annual income from that unit of production in that period is the amount in the corresponding entry in Column 3, as read with any relevant note to the Schedule.

(3) Where the land in question is capable, when farmed under competent management, of producing a net annual income and was an eligible hectare in 2018 in accordance with entry 4 in Column 1 of the Schedule—

- (a) the unit of production prescribed in relation to that use of the land is the unit in the corresponding entry in Column 2, and
- (b) the amount determined, for the period of 12 months beginning with 6th January 2020, as the net annual income from that unit of production in that period is the amount in the corresponding entry in Column 3.

## EXPLANATORY NOTE

*(This note is not part of the Order)*

This Order prescribes units of production for the assessment of the productive capacity of agricultural land situated in England and sets out the amount which is to be regarded as the net annual income from each such unit for the year from 6th January 2020 to 5th January 2021 for certain purposes of the Agricultural Holdings Act 1986 (“the 1986 Act”).

An assessment of the productive capacity of agricultural land is required in determining whether or not the land in question is a “commercial unit of agricultural land” for the purposes of the succession provisions in the 1986 Act (in particular sections 36(3) and 50(2)). A “commercial unit of agricultural land” is a unit of agricultural land which, when farmed under competent management, is capable of producing a net annual income which is not less than the aggregate of the average annual earnings of two full-time male agricultural workers aged 20 years or over (as defined in paragraph 3 of Schedule 6 to the 1986 Act).

Article 2 of this Order provides that, in determining this annual income figure, whenever a particular farming use mentioned in Column 1 of the Schedule is relevant to the assessment of the productive capacity of the land in question, the units of production and the net annual income specified in Columns 2 and 3 respectively will form the basis of that assessment.

Article 2 also includes net annual income figures for land which was, in 2018, an eligible hectare within the meaning of Article 32(2) of Regulation (EU) No 1307/2013 of the European Parliament and of the Council establishing rules for direct payments to farmers under support schemes within
