The Secretary of State's determination

46.—(1) The Secretary of State may, before replacement day, make a relevant determination.

(2) A relevant determination is a determination that where, pursuant to the EU Regulation, tariff rate quotas are expected to apply to specified categories of steel products immediately before replacement day (referred to in this Part as “EU tariff rate quotas”), tariff rate quotas in respect of each of which the additional rate of import duty is the same as the corresponding EU rate, apply to the same categories of steel products upon and from replacement day until the appropriate date.

(3) In setting the amount of a tariff rate quota, the Secretary of State must recalculate the volume of the EU tariff rate quota applicable to the same goods to reflect the circumstances of the United Kingdom.

(4) The Secretary of State's determination must provide that the amount of each quota increases as the period for which the tariff rate quota applies progresses.

[^{F5}(5) The Secretary of State's determination may provide for a part or the whole of a tariff rate quota to be allocated or utilised on such terms as the Secretary of State considers appropriate.]

(6) Except where the conditions in regulation 44(2) are satisfied or where paragraph (7) applies, a relevant determination must not except goods originating from a particular foreign country or territory from the application of a tariff rate quota.

(7) This paragraph applies where the relevant goods are goods originating from a developing country member of the WTO that is a low volume exporter provided the imports, during such period as the TRA determines is appropriate, from all such members who are low volume exporters collectively account for no more than 9 per cent. of the total imports of such goods into the United Kingdom.

(8) In this regulation—

“appropriate date” means the date upon which, pursuant to the EU Regulation, the definitive safeguard measures imposed by that regulation are due to expire;

“corresponding EU rate” means the additional rate of import duty in respect of an EU tariff rate quota;

“low volume exporter” has the meaning given by regulation 43(1);

^{F6} ...

“safeguarding amount” means an additional amount of import duty.

Treatment of tariff rate quotas under this Part etc

48.—(1) Tariff rate quotas applicable to goods under this Part shall be treated as if they were tariff rate quotas applicable to goods following the Secretary of State's acceptance of a recommendation made by the TRA under paragraph 16(3) of Schedule 5 to the Act and, subject to the provision made by this Part and to the extent that the context permits, section 13 of the Act, that Schedule and the other Parts of these Regulations apply in relation to the former tariff rate quotas as they do in relation to tariff rate quotas applicable to goods following that acceptance.

(2) For the purpose of the application, in accordance with paragraph (1), of the other Parts of these Regulations in relation to tariff rate quotas applicable to goods under this Part, a reference in any of those Parts to a public notice under section 13 of the Act shall, in the case of such tariff rate quotas, be taken to include a public notice referred to in this Part.

(3) The date upon which a tariff rate quota applicable to goods under this Part began, shall be treated, for the purpose of any provision of Schedule 5 to the Act or these Regulations, as the date upon which the EU tariff rate quota in respect of the same category of steel products was imposed.

(4) The date upon which an EU tariff rate quota was imposed is, in the case of a definitive measure preceded by a provisional one, the date of the imposition of the provisional measure.

Review of ^{F13}specified tariff rate quotas]

49.—(1) The TRA must—

- (a) conduct a review (referred to in this Part as the “transition review”) of the application of the ^{F14}specified tariff rate quotas]; and
- (b) initiate that review at the request of, and within any time period stipulated by, the Secretary of State.

(2) Upon initiating the transition review, the TRA must—

- (a) publish a notice of its initiation of the review; and
- (b) notify the Secretary of State accordingly.

(3) The notice referred to in paragraph (2)(a) must contain—

- ^{F15}(a) the information referred to in subparagraphs (a) to (c) of regulation 47(3);]

(b) the information referred to in ^{F16}subparagraphs (d) to (n) of] paragraph 9 of the Schedule.

(4) The transition review is a review to consider whether goods belonging to each specified category of steel products were, during the same investigation period considered by the European Commission in connection with the EU tariff rate quotas, imported into the United Kingdom in increased quantities and, where the TRA finds that goods belonging to such a category were so imported, whether—

- (a) the importation of those goods in increased quantities would be likely to recur if they were no longer subject to a tariff rate quota;
- (b) there would be serious injury to UK producers of the like goods and directly competitive goods if goods belonging to that category were no longer subject to a tariff rate quota;
- (c) the continuation of a tariff rate quota is necessary to facilitate the adjustment of the UK producers of the like goods and directly competitive goods to the importation of goods belonging to that category; and
- (d) whether an alternative tariff rate quota or the application of a safeguarding amount to goods belonging to that category would better meet the aim of preventing ^{F17}... serious injury to the UK producers of the like goods and directly competitive goods.

(5) The transition review may include the consideration of whether it is appropriate to—

- (a) increase the amount of a tariff rate quota and, if so, to what level;
- (b) vary (or provide for) the allocation of a tariff rate quota and, if so, how;
- (c) reduce the additional amount of import duty and, if so, to what level;
- (d) reduce ^{F18}or extend] the period for which goods are subject to the quota and, if so, to what period;
- (e) ^{F19}vary] the pace of liberalisation and, if so, how.

^{F20}(f) vary (or provide for) the terms on which a part or the whole of a tariff rate quota is allocated or may be utilised.]

^{F21}(5A) For the purpose of considering whether it is appropriate to reduce or extend the period for which goods are subject to the quota (see paragraph (5)(d)), the TRA may consider the importation into the United Kingdom of goods belonging to each specified category of steel products since the investigation period considered by the European Commission.]

(6) Parts 2 to 5 apply to the transition review to the extent that the TRA considers relevant.

(7) Where other Parts of these Regulations are applied to the transition review, references in those Parts to “goods concerned” and similar expressions shall be construed as references to the goods to which the application of a tariff rate quota is being reviewed.

(8) The TRA may initiate the transition review before replacement day ^{F22}, in which case the review continues on and after replacement day only in relation to the tariff rate quotas made applicable to goods in provision by public notice made under regulation 47(2)] .

^{F23}(9) The TRA may terminate the transition review only if regulation 47(5) applies (see regulation 47(4)).

(10) If the TRA terminates the transition review, the TRA must publish a notice containing the information referred to in paragraph 12 of the Schedule.]

Determinations of the TRA

50.—(1) The TRA must, in accordance with this regulation, make determinations covering all of the goods subject to review.

(2) Where, under regulation 49(4), the TRA considers that goods belonging to a specified category of steel products were not being imported into the United Kingdom in increased quantities [^{F24}or were not being produced by UK producers], a determination of the TRA referred to in paragraph (1) must be a determination that the application of a tariff rate quota to those goods ^{F25}... be revoked.

(3) A determination referred to in paragraph (2) must be made as soon as practicable.

(4) Where, under regulation 49(4), the TRA considers that goods belonging to a specified category of steel products were being imported into the United Kingdom in increased quantities, a determination of the TRA referred to in paragraph (1) is a determination, made upon the conclusion of the transition review, that the application of a tariff rate quota to goods should—

- (a) continue unvaried;
- (b) be varied;
- (c) be replaced by a safeguarding amount; or
- (d) be revoked.

(5) The TRA must not make a determination that the application of a tariff rate quota to goods should continue unvaried unless it is satisfied that the application of the tariff rate quota to those goods in accordance with that determination would meet the economic interest test (see paragraph

23 of Schedule 5 to the Act) and, where it is not so satisfied, it must instead make a determination that the application of that tariff rate quota to those goods should be revoked.

(6) Where the TRA makes a determination that the application of a tariff rate quota to goods should be varied, the variation may, among other things, comprise or include—

- (a) increasing the amount of a tariff rate quota;
- (b) varying (or providing for) the allocation of a tariff rate quota;
- (c) reducing the additional rate of import duty;
- (d) reducing [^{F26}or extending] the period for which a tariff rate quota applies to goods;
- (e) [^{F27}varying] the pace of liberalisation.
- [^{F28}(f) varying (or providing for) the terms on which a part or the whole of a tariff rate quota is allocated or may be utilised.]

[^{F29}(7) A determination of the TRA referred to in paragraph (6) may include a determination to extend the period for which a tariff rate quota applies to goods only if the TRA considers that—

- (a) the tariff rate quota continues to be necessary to prevent serious injury to UK producers; and
- (b) there is evidence of UK producers adjusting to the importation of the goods.]
