20.—(1) Article 28 is amended as follows.

(2) In paragraph 1, for the words before subparagraph (a), substitute—

“**1.** Following the consultation and finalisation of the design phase for an incremental capacity project in accordance with Article 27, the involved transmissions system operators must submit the project proposal for an incremental capacity project to the relevant national regulatory authority for approvals. Where the project proposal concerns both national regulatory authorities, the transmission system operators must coordinate the submissions for approval. Where the project proposal concerns one or more non-UK TSOs, the involved transmission system operators must endeavour to ensure that the submissions for approval to the national regulatory authorities are coordinated with any non-UK TSO's submission for approval to any non-UK regulatory authority. The project proposal must also be published by the involved transmission system operators.

Subject to paragraph 1A, transmission system operators must ensure that the project proposal includes at least the following information:”.

(3) After the end of paragraph 1(g), insert—

“**1A.** If a non-UK TSO is involved, transmission system operators must include in the project proposal the information that is listed in paragraph 1(a) to (g) in so far as they are able to do so and must endeavour to cooperate with the non-UK TSO to include all the information listed in paragraph 1(a) to (g).”.

(4) For paragraph 2, substitute—

“**2.** Within 6 months of receipt of the complete project proposal by the relevant national regulatory authorities, the national regulatory authorities must publish decisions on the project proposal defined in paragraph 1. Where decisions are required by both national regulatory authorities, those decisions must be coordinated. Where the project proposal concerns any non-UK TSOs, the national regulatory authorities must endeavour to coordinate their decisions with the decision of any relevant non-UK regulatory authorities. The decisions must include justifications. The national regulatory authorities must, where relevant, inform each other and any relevant non-UK regulatory authority of the receipt of the project proposal and its completeness in order to determine the start of the 6 months period.

When preparing the national regulatory authority's decision, each national regulatory authority must consider the views of the other national regulatory authority, if it is also involved. Where the project proposal concerns any non-UK TSOs, the national regulatory

authorities must consider the views of any relevant non-UK regulatory authorities. In any case the national regulatory authorities must take into account any detrimental effects on competition or the obligation on any relevant non-UK regulatory authority to take into account the effective functioning of the internal gas market, where those factors are associated with the incremental capacity projects concerned.

If a relevant national regulatory authority objects to the submitted project proposal, it must, if relevant, inform the other involved national regulatory authority and any involved non-UK regulatory authority as soon as possible. In such a situation, the national regulatory authorities must take all reasonable steps to work together, if both are involved, and must take all reasonable steps to work with any involved non-UK regulatory authorities to reach a common agreement.”.

(5) For paragraph 3, substitute—

“3. Upon the publication of the decisions of the national regulatory authorities pursuant to paragraph 2 and no later than 2 months before the offer of incremental capacity in the annual yearly capacity auction, the transmission system operators must publish a notice. Transmission system operators must publish that notice jointly. Where relevant, the transmission system operators must endeavour to ensure that the notice is published jointly with any concerned non-UK TSO. The notice must include the following minimum information—

- (a) the information defined in paragraph 1 as approved by the national regulatory authorities; and
- (b) a template of the contracts related to the capacity offered.”.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations are made in exercise of the powers in section 8(1) of the European Union (Withdrawal) Act 2018 (c. 16) in order to address failures of retained EU law to operate effectively and other deficiencies (in particular under section 8(2), subsections (a), (b), (c) and (g)) arising from the withdrawal of the United Kingdom from the European Union.

These Regulations amend —

- Regulation (EU) 2017/1938 concerning measures to safeguard the security of gas supply (“the Security of Gas Supply Regulation”);
- Commission Regulation (EU) No 312/2014 of 26 March 2014 establishing a Network Code on Gas Balancing of Transmission Networks (“the Balancing Code”);
- Commission Regulation (EU) 2015/703 of 30 April 2015 establishing a network code on interoperability and data exchange rules (“the Interoperability Code”);
- Commission Regulation (EU) 2017/459 establishing a network code on capacity allocation mechanisms in gas transmission systems (“the Capacity Allocation Mechanisms Code”);
- Commission Regulation (EU) 2017/460 of 16 March 2017 establishing a network code on harmonised transmission tariff structures for gas (“the Tariffs Code”);

The Security of Gas Supply Regulation, the Balancing Code, the Interoperability Code and the Capacity Allocation Mechanisms Code form part of the domestic law of the United Kingdom on

Changes to legislation: There are currently no known outstanding effects for the The Gas (Security of Supply and Network Codes) (Amendment) (EU Exit) Regulations 2019. (See end of Document for details)

and after exit day by virtue of section 3 of the European Union (Withdrawal) Act 2018. Chapter 1 and Chapters 5 to 10 of the Tariffs Code form part of the domestic law of the United Kingdom on and after exit day by virtue of section 3 of the European Union (Withdrawal) Act 2018. Chapters 2, 3 and 4 of the Tariffs Code do not form part of the domestic law of the United Kingdom on and after exit day, as they do not apply in EU law until 31 May 2019. The Security of Gas Supply Regulation is amended by the Electricity and Gas (Powers to Make Subordinate Legislation) (Amendment) (EU Exit) Regulations 2018.

A full impact assessment has not been produced for this instrument as no, or no significant, impact on the private, voluntary or public sectors is foreseen.

Status:

This version of this Instrument contains provisions that are prospective.

Changes to legislation:

There are currently no known outstanding effects for the The Gas (Security of Supply and Network Codes) (Amendment) (EU Exit) Regulations 2019.
