The Greenhouse Gas Emissions Trading Scheme Order 2020

PART 4

Aviation

Variation of emissions monitoring plans

31.—(1) An aircraft operator—

- (a) may apply to the regulator to vary its emissions monitoring plan;
- (b) must apply to the regulator to vary its emissions monitoring plan where required to do so by a condition of the emissions monitoring plan.

(2) A variation applied for under paragraph (1) is given effect by the regulator giving notice to the aircraft operator.

(3) Paragraphs (1) and (2) do not affect the operation of any condition of an emissions monitoring plan that allows an aircraft operator to make a variation without applying to the regulator.

(4) The regulator may, by giving notice to an aircraft operator, make any variation of the aircraft operator's emissions monitoring plan that the regulator considers necessary in consequence of a report made by the aircraft operator under Article 69(4) of the Monitoring and Reporting Regulation 2018.

(5) The regulator may, by giving notice to an aircraft operator, vary the aircraft operator's emissions monitoring plan where the aircraft operator has failed to comply with a requirement in the emissions monitoring plan to make or apply for such a variation.

(6) The regulator may, by giving notice to an aircraft operator, vary the aircraft operator's emissions monitoring plan by modifying, adding or removing a condition if the regulator considers it necessary to do so to give proper effect to the Monitoring and Reporting Regulation 2018 or the Verification Regulation 2018.

(7) In this article references to an aircraft operator include any person who has been issued with an emissions monitoring plan.
