

EXPLANATORY MEMORANDUM TO
THE IMPORT OF, AND TRADE IN, ANIMALS AND ANIMAL PRODUCTS
(MISCELLANEOUS AMENDMENTS) (EU EXIT) REGULATIONS 2020

2020 No. 1462

1. Introduction

- 1.1 This Explanatory Memorandum has been prepared by the Department for Environment, Food and Rural Affairs and is laid before Parliament by Command of Her Majesty.

2. Purpose of the instrument

- 2.1 The purpose of this instrument is to ensure a functioning imports system at the end of the Implementation Period by making operability amendments to the Trade in Animal and Related Products Regulations 2011 (S.I. 2011/1197). Operability amendments include: technical changes to language to remove European Union terms; changes to reflect the status of the European Economic Area as a third country; and introduce the government's previously announced phased approach to imports control on goods arriving from the European Economic Area. This instrument is made under the European Union (Withdrawal) Act 2018 ("the Withdrawal Act").

Explanations

What did any relevant EU law do before exit day?

- 2.2 The retained European Union Regulations and Decisions being amended by this instrument relate to the animal health requirements for the importation into, and transit through, European Union States of live animals, products of animal origin, germplasm (semen, ova and embryos) and the non-commercial movement of pet animals, circus animals and equines.

Why is it being changed?

Now that we have left the European Union we will be implementing our own imports policy based on our relevant trading relationships. This instrument will make technical amendments and give effect to the government's announced policy of phasing in third country checks on European Union consignments.

What will it now do?

This instrument will allow us to set imports policy for animals and animal products using a risk-based analysis in line with domestic imports policy. The amendments contained in this instrument will provide for the continuation of the existing legal framework under European Union law which relates to the importation into, and transit through, Great Britain of live animals and animal products from the European Union and from other listed third countries from the 1 January 2021. It will ensure that official controls on imports of live animals and animal products are effective to safeguard animal and public health in Great Britain. Imported goods will continue to be required to meet the specific import conditions laid down in the relevant domestic and retained European Union legislation. Provision will be made in respect of the

continuing authorisation of businesses, health certification, conditions for transport and appropriate safeguard actions to be taken in case of a reported non-compliance with official controls or disease outbreak in exporting countries.

3. Matters of special interest to Parliament

Matters of special interest to the Joint Committee on Statutory Instruments

3.1 None.

Matters relevant to Standing Orders Nos. 83P and 83T of the Standing Orders of the House of Commons relating to Public Business (English Votes for English Laws)

3.2 The territorial application of this instrument includes Scotland and Wales.

3.3 Part 4 of this instrument replaces The Import of and Trade in Animals and Animal Products (Amendment etc.) (EU Exit) Regulations 2019 (“S.I. 2019/795”) which was United Kingdom-wide in its application. Part 4 therefore now applies only to England, Scotland and Wales due to the introduction of the Northern Ireland Protocol.

4. Extent and Territorial Application

4.1 The territorial extent of this instrument is the United Kingdom.

4.2 The territorial application of this instrument is England (Regulations 2-32) and Great Britain (Regulations 33-70).

5. European Convention on Human Rights

5.1 The Parliamentary Under Secretary of State for Rural Affairs and Biosecurity at the Department for Environment Food and Rural Affairs, Lord Gardiner of Kimble has made the following statement regarding Human Rights:

5.2 “In my view the provisions of the Import of and Trade in Animals and Animal Products (Miscellaneous Amendments) (EU Exit) Regulations 2020 are compatible with the Convention rights.”

6. Legislative Context

6.1 This instrument is being passed to give effect to a new import regime at the end of the Transition Period now that we have left the European Union. It makes amendments to the England-only Trade in Animal and Related Products Regulations 2011 (Part 2, Chapter 1), to previously made EU Exit SIs (Chapter 2) and to retained European Union directly applicable legislation (Part 3). See Annex II for a full list of the EU Exit SIs and retained European Union Regulations.

7. Policy background

What is being done and why?

7.1 No substantive change is being made to policy. This instrument amends redundant references to European Union laws and systems which will no longer be relevant at the end of the Transition Period and is necessary to ensure a functioning system for the importation of live animals (including equines), products of animal origin (including meat), animal by-products, and germplasm whilst maintaining biosecurity and welfare standards. These changes aim to maintain the existing import regime and the amendments to directly applicable European Union Regulations and Decisions

made by this instrument are technical in nature. It introduces transitional arrangements for imports from the European Union in line with the Government's previous announcements on this.¹

- 7.2 The approach from 1st April 2021 allows Great Britain to protect itself from European Union imports of Products of Animal Origin ("POAO") that may pose a biosecurity risk. Given Great Britain is currently part of the European Union's Sanitary and Phytosanitary ("SPS") regime, this risk is currently very low. Additionally, through the pre-notification requirement, the new regime will provide data on the risk posed by European Union imports. This data will be able to inform decisions on future controls, leading to a more efficient regime.
- 7.3 The amendments are made in accordance with the Withdrawal Act to ensure no legislative hindrance to movement of live animals including equines, and trade in animal products including meat with the European Union and other listed third countries, at the end of the Transition Period.
- 7.4 Regulations 2-32 makes substantive further operability amendments to English domestic trade-related secondary legislation. The operability amendments to the Trade in Animal and Related Products Regulations 2011 ("S.I. 2011/1197") made at the end of 2019 have been necessitated due to the substantial amendments made to that English instrument following the United Kingdom implementation of the Official Control Regulation (EU) 2017/625 in December 2019. This is the reason why a complete re-make of earlier European Union Exit instruments, such as S.I. 2019/795, is the chosen way forward instead of adding another level of further amendments into existing European Union Exit provisions. These new amendments ensure that England will have a deliverable and well-functioning imports system for animals and animal products at the end of the Transition Period. It introduces transitional arrangements for specified territories in Schedule 5 to deliver the Government's decision to phase in official controls on imports from those countries subject to special transitional measures. Regulations 37-67 remake operability amendments made last year in EU Exit S.I. 2019/795 to the directly applicable European Union Regulations and Decisions listed above that have been necessitated mainly by the operation of the Northern Ireland Protocol being in force from the end of the Implementation Period.
- 7.5 Regulations 68-70 deal with revocations, savings and transitional provisions, with the latter providing for existing health certificates to continue to be recognised for imports into Great Britain for a period of time after 31 December 2020.

8. European Union (Withdrawal) Act/Withdrawal of the United Kingdom from the European Union

- 8.1 This instrument is being made using the power conferred by section 8 of the Withdrawal Act in order to address failures of retained European Union law to operate effectively or other deficiencies arising from the withdrawal of the United Kingdom from the European Union. In accordance with the requirements of that Act the Minister has made the relevant statements as detailed in Part 2 of Annex I to this Explanatory Memorandum.

9. Consolidation

9.1 None, however this instrument re-makes operability amendments to a number of previously made EU Exit SIs.

10. Consultation outcome

10.1 This instrument was not subject to consultation. The amendments in the legislation are technical in nature. There are no policy changes so no public consultation has been undertaken.

10.2 This instrument and the policy reflected in it has been developed in collaboration with Devolved Administration officials

11. Guidance

11.1 Guidance is available on gov.uk: <https://www.gov.uk/prepare-to-import-to-great-britain-from-january-2021>; <https://www.gov.uk/import-goods-outside-eu>

12. Impact

12.1 An Impact Assessment has not been prepared for this instrument because this instrument maintains existing border controls on imports of animals, animal by-products, products of animal origin and other products and in line with Better Regulation Executive guidance, an Impact Assessment is not required for operability changes.

12.2 Compliance with the regulatory changes will result in some familiarisation costs to importers to Great Britain. There are estimated to be almost 26,900 United Kingdom firms involved in the import of either POAO or live animals (based on internal Defra analysis).

12.3 From 1 January 2021, importers of animal by-products and live animals will be required to pre-notify via Great Britain's new system for the notification of imports (known as "IPAFFs"). European Union imports of animal by-products and live animals are already required to pre-notify via the European Union's electronic notification system (known as "TRACES"), therefore the requirement to pre-notify via IPAFFS will likely lead to a negligible additional burden for these commodities. From 1 April 2021, importers of POAO will also be required to pre-notify via "IPAFFs". This is likely to add to the staffing costs of a proportion of the 21,600 firms who are estimated to be involved in the import of POAO (<https://www.ons.gov.uk/businessindustryandtrade/business/activitysizeandlocation/datasets/ukbusinessactivitysizeandlocation>).

13. Regulating small business

13.1 This instrument applies to activities that are undertaken by small businesses.

13.2 To minimise the impact of the requirements on small businesses (employing up to 50 people), the approach taken is to replicate as far as possible existing import requirements so that there is as little disruption to trade in animals and animal products as possible.

14. Monitoring & review

- 14.1 Following the operation of the transitional phased approach to import controls during 2021 Defra will then review any necessary changes required to the Trade in Animal and Related Products Regulations 2011.
- 14.2 As this instrument is made under the European Union Withdrawal Act 2018, no review clause is required.

15. Contact

- 15.1 Coralie Blatchford-Neave at the Department for Environment, Food and Rural Affairs Telephone: 07919697363 or email: coralie.blatchford-neave@defra.gov.uk can be contacted with any queries regarding this instrument.
- 15.2 Peter Jinks, Deputy Director for imports of animals and animal products, at the Department for Environment, Food and Rural Affairs can confirm that this Explanatory Memorandum meets the required standard.
- 15.3 The Parliamentary Under Secretary of State for Rural Affairs and Biosecurity, Lord Gardiner of Kimble, at the Department for Environment, Food and Rural Affairs can confirm that this Explanatory Memorandum meets the required standard.

Part 2

Statements required when using enabling powers under the European Union (Withdrawal) 2018 Act

1. Appropriateness statement

- 1.1 The Parliamentary Under Secretary of State for Rural Affairs and Biosecurity, Lord Gardiner of Kimble has made the following statement regarding use of legislative powers in the European Union (Withdrawal) Act 2018:

“In my view the Imports of and Trade in Animals and Related Products (Miscellaneous Amendments) (EU Exit) Regulations 2020 does no more than is appropriate”.

- 1.2 This is the case because it relates to maintenance of existing regulatory standards and for the justifications set out at paragraph 7.1. of this Explanatory Memorandum.

2. Good reasons

- 2.1 The Parliamentary Under Secretary of State for Rural Affairs and Biosecurity, Lord Gardiner of Kimble has made the following statement regarding use of legislative powers in the European Union (Withdrawal) Act 2018:

“In my view there are good reasons for the provisions in this instrument, and I have concluded they are a reasonable course of action”.

- 2.2 These are the reasons set out at paragraph 7.1. of this Explanatory Memorandum.

3. Equalities

- 3.1 The Parliamentary Under Secretary of State for Rural Affairs and Biosecurity, Lord Gardiner of Kimble has made the following statement(s):

“The Import of and Trade in Animal and Related Products (Miscellaneous Amendments) (EU Exit) Regulations 2020 does not amend, repeal or revoke a provision or provisions in the Equality Act 2006 or the Equality Act 2010 or subordinate legislation made under those Acts.”

- 3.2 The Parliamentary Under Secretary of State for Rural Affairs and Biosecurity, Lord Gardiner of Kimble has made the following statement regarding use of legislative powers in the European Union (Withdrawal) Act 2018:

“In relation to the Import of and Trade in Animal and Related Products (Miscellaneous Amendments) (EU Exit) Regulations 2020, I, Lord Gardiner of Kimble have had due regard to the need to eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under the Equality Act 2010.”

4. Explanations

- 4.1 The explanations statement has been made in section 2 of the main body of this Explanatory Memorandum.

5. Legislative sub-delegation

5.1 The Parliamentary Under Secretary of State for Rural Affairs and Biosecurity, Lord Gardiner of Kimble, has made the following statement regarding use of legislative powers in the European Union (Withdrawal) Act 2018:

“In my view it is appropriate to create a relevant sub-delegated power in the Import of and Trade in Animals and Animal Products (Amendment etc.) (EU Exit) Regulations 2020.”

5.2 This is appropriate because it enables the Secretary of State to publish and amend health certificates and certain lists, rather than retaining them in legislation, so that they can be amended and improved quickly in future. As the contents of the certificates and lists reflect the legislation for imports, substantive changes would still require the usual parliamentary oversight.

Annex II

Legislation to be amended or revoked by The Import of and Trade in Animals and Animal Products (Miscellaneous Amendments) (EU Exit) Regulations 2020.

1. Previously Made EU Exit Statutory Instruments Being Amended

- 1.1 The Environment, Food and Rural Affairs (Amendment) (EU Exit) Regulations 2019;
