

EXPLANATORY MEMORANDUM TO
THE ELECTRICITY (INDIVIDUAL EXEMPTION FROM THE REQUIREMENT
FOR A GENERATION LICENCE) (KYPE MUIR EXTENSION WIND FARM)
ORDER 2021

2021 No. 510

1. Introduction

- 1.1 This explanatory memorandum has been prepared by the Department for Business, Energy and Industrial Strategy and is laid before Parliament by Command of Her Majesty.

2. Purpose of the instrument

- 2.1 To grant exemption from the requirement to hold an electricity generation licence to Banks Renewables (Harting Rig Wind Farm) Limited in respect of the Kype Muir Extension Wind Farm.

3. Matters of special interest to Parliament

Matters of special interest to the Joint Committee on Statutory Instruments

- 3.1 None.

Matters relevant to Standing Orders Nos. 83P and 83T of the Standing Orders of the House of Commons relating to Public Business (English Votes for English Laws)

- 3.2 As the instrument is subject to negative resolution procedure there are no matters relevant to Standing Orders Nos. 83P and 83T of the Standing Orders of the House of Commons relating to Public Business at this stage.

4. Extent and Territorial Application

- 4.1 The territorial extent of this instrument is Great Britain.
4.2 The territorial application of this instrument is Scotland.

5. European Convention on Human Rights

- 5.1 As the instrument is subject to negative resolution procedure and does not amend primary legislation, no statement is required.

6. Legislative Context

- 6.1 Section 4(1)(a) of the Electricity Act 1989 (“the Act”) makes it an offence for a person to generate electricity for the purpose of giving a supply to any premises or enabling a supply to be so given unless authorised to do so by licence. Section 5(1) of the Act provides that the Secretary of State may, by order, grant exemption from section 4(1)(a) either to a person or to persons of a class.
6.2 Section 5(2) and (3) of the Act set out the notice requirements for making such an order.

- 6.3 The Electricity (Class Exemptions from the Requirement for a Licence) Order 2001 (“the Class Exemptions Order”)¹, made under section 5(1) of the Act, provides exemptions for various classes of electricity generation, but none of those class exemptions are applicable to Kype Muir Extension Wind Farm.

7. Policy background

What is being done and why?

- 7.1 Banks Renewables (Harting Rig Wind Farm) Limited has made an individual application for exemption from the requirement to hold an electricity generation licence in respect of the generating station named in article 3 of the instrument.
- 7.2 As outlined in the Act (in particular section 3A), the principal objective of the Secretary of State in carrying out relevant functions under the Act is to protect the interests of existing and future consumers in relation to electricity conveyed by distribution systems or transmission systems (including their interests in the reduction of emissions of targeted green-house gases), wherever appropriate by promoting effective competition between persons engaged in, or in commercial activities connected with, the generation, transmission, distribution or supply of electricity.
- 7.3 In delivering the principal objective, the Secretary of State should have regard to, among other things, the need to ensure security of supply and the need to contribute to the achievement of sustainable development. In addition, the Secretary of State’s regulatory activities should be transparent, accountable, proportionate, consistent and targeted only at cases in which action is needed.
- 7.4 The Department’s exemptions policy is set out in the Electricity Generation, Distribution and Supply Licence Exemptions - Frequently Asked Questions document². Under the exemptions policy, applications for individual exemption regarding stations conducting generation activities of above 50 megawatts and up to 100 megawatts capacity may be considered for exemption because plant of less than 100 megawatt capacity will generally have a low impact on the total electricity system and it is generally considered appropriate that such stations be exempted from the same degree of system regulation (and costs) as is imposed by standard licensing conditions. In determining applications, the Secretary of State takes account of the impact of the exemption on the safe and secure operation of the electricity system, and the interests of consumers, and why it would be disproportionate for the applicant to meet the costs and obligations of a licence.
- 7.5 The impact that Kype Muir Extension Wind Farm will have on the system is low, and it would be appropriate to grant an individual exemption from the requirement to hold a generation licence, subject to standard conditions (set out in article 4 of the instrument).

8. European Union (Withdrawal) Act/Withdrawal of the United Kingdom from the European Union

8.1 This instrument does not relate to withdrawal from the European Union / trigger the statement requirements under the European Union (Withdrawal) Act.

9. Consolidation

9.1 None.

10. Consultation outcome

10.1 In accordance with Section 5(2) of the Act, a notice was published on the Government website setting out the proposal to make the instrument, containing the terms of this instrument, and inviting representations, on 23 March 2021.

10.2 The notice was also brought to the attention of Scottish Ministers.

10.3 The notice period closed on 20 April 2021 and no representations were received.

11. Guidance

11.1 Guidance on licence exemptions exists on the Government website³.

12. Impact

12.1 There is no, or no significant, impact on business, charities or voluntary bodies.

12.2 There is no, or no significant, impact on the public sector.

12.3 An Impact Assessment has not been prepared for the licence exemptions granted by this instrument because the impact is believed to be de-minimis. A general regulatory impact assessment in respect of exemptions from the requirements of section 4(1)(a) of the Electricity Act 1989 was prepared in 2001 and can be obtained from the Department for Business, Energy and Industrial Strategy, Wholesale Electricity Markets, 1 Victoria Street, London SW1H 0ET. Copies have been placed in the libraries of both Houses of Parliament.

13. Regulating small business

13.1 The legislation does not apply to activities that are undertaken by small businesses.

14. Monitoring & review

14.1 There are no formal monitoring or review requirements for this instrument. However, failure by Banks Renewables (Harting Rig Wind Farm) Limited to meet any of the conditions in article 4 of the instrument, will render the exemption invalid. In such circumstances, Banks Renewables (Harting Rig Wind Farm) Limited would not be exempt from the requirement to hold a licence to generate electricity in respect of Kype Muir Extension Wind Farm and would need to obtain a licence to comply with the Act.

14.2 The instrument does not include a statutory review clause and, in line with the requirements of the Small Business, Enterprise and Employment Act 2015, Minister Anne-Marie Trevelyan has made the following statement. The impact of the measures in this instrument are not expected to be significant (less than £5 million annualised

³ www.gov.uk/guidance/electricity-licence-exemptions

net business impact). It would be disproportionate to include such a review clause because of the costs involved in undertaking such a review, with limited scope for change following any review.

15. Contact

- 15.1 Chris Chown at the Department for Business, Energy and Industrial Strategy (Telephone: 0300 068 6085 or email: chris.chown@beis.gov.uk) can be contacted with any queries regarding the instrument.
- 15.2 Jane Walker, Deputy Director for Markets and Affordability, at the Department for Business, Energy and Industrial Strategy can confirm that this Explanatory Memorandum meets the required standard.
- 15.3 Anne-Marie Trevelyan, Minister at the Department for Business, Energy and Industrial Strategy can confirm that this Explanatory Memorandum meets the required standard.
