2021 No. 792

The Space Industry Regulations 2021

PART 8

Safety of operator's spaceflight activities

CHAPTER 4

Other safety requirements

SECTION 5

Preparations for launch, return and other operations

The spaceport (or other place of launch or landing) and the range

95.—(1) A spaceflight operator must ensure that the spaceport or other place used for the operator's spaceflight activities is fit for those activities.

(2) A spaceflight operator must ensure that the range for the operator's spaceflight activities is fit for those activities.
