2022 No. 595

The Wireless Telegraphy (Mobile Repeater) (Exemption) Regulations 2022

PART 2

Mobile repeater devices for indoor use

Terms, provisions and limitations for all mobile repeater devices

Limitations on transmissions

5.—(1) The mobile repeater device must only be established, installed, and used where the transmissions it makes on downlink frequencies are made indoors.

(2) The mobile repeater device may only amplify signals carried over the downlink frequencies and the uplink frequencies.
