2022 No. 875

**ELECTRICITY
GAS**

**The Electricity and Gas (Energy
Company Obligation) Order 2022**

Made - - - - - *26th July 2022*

Coming into force *27th July 2022*

**THE ELECTRICITY AND GAS (ENERGY
COMPANY OBLIGATION) ORDER 2022**

PART 1

Introduction

1. Citation, commencement and extent
2. Interpretation

PART 2

Overall home-heating cost reduction target

3. Overall home-heating cost reduction target
4. Definition of a participant
5. Notification by participants of domestic customers and energy supplied

PART 3

Determining obligations and minimum requirements

6. Determining a participant's obligations and minimum requirements
7. Determining obligations and minimum requirements for a participant who is not a member of a group
8. Determining obligations and minimum requirements for a participant who is a member of a group
9. Determining supply of gas or electricity

Changes to legislation: There are currently no known outstanding effects for the The Electricity and Gas (Energy Company Obligation) Order 2022. (See end of Document for details)

PART 4

Achievement of obligations

10. Achievement of total home-heating cost reduction obligation

PART 5

Qualifying actions

CHAPTER 1

General criteria for qualifying actions

11. Qualifying actions: overview
12. Qualifying actions: general requirements relating to Condition A

CHAPTER 2

Measures which are part of ECO4 projects

SECTION 1

Projects at domestic premises occupied by help to heat group member or social housing

13. Measures installed at owner-occupied premises
14. Measures installed at private rented premises
15. Measures installed at band D social housing
16. Measures installed at band E, F or G social housing

SECTION 2

Projects accompanied by declaration from a relevant authority or participant

17. Measures accompanied by a declaration from a relevant authority: household income below £31,000
18. Measures accompanied by a declaration from a relevant authority: premises meeting specified criteria
19. Measures accompanied by a declaration from a relevant authority: referral from a relevant health provider
20. Measures accompanied by a declaration from a participant: debt, discretionary credit and self-disconnection
21. Measures accompanied by a declaration from a relevant authority or participant: Secretary of State approval

CHAPTER 3

In-fill measures

22. In-fill measures in flats
23. In-fill measures in houses

CHAPTER 4

Requirements for heating measures

SECTION 1

Minimum insulation requirement for heating measures

24. Minimum insulation requirement for certain band D premises
25. Minimum insulation requirement for band E, F and G and other band D premises

SECTION 2

Additional requirements for heating measures

26. Additional requirements to be met by heating measures
27. General requirements relating to heating measures
28. Requirements specific to heating measures installed at on-gas premises
29. Requirements specific to heating measures installed at off-gas premises
30. Hierarchy of heating measures installed at off-gas premises

CHAPTER 5

Installation standards etc.

31. Installation standards, consumer protection and smart meter advice

PART 6

Applications relating to innovation measures

32. Part 6: interpretation
33. Applications for approval as an innovation measure
34. Approval as a standard innovation measure or substantial innovation measure
35. Further applications: substantial innovation measures
36. Publication of information following approval of an innovation measure
37. Definitions: standard innovation measures and substantial innovation measures

PART 7

Applications relating to data light measures and standard alternative methodology measures

38. Applications
39. Approval as a data light measure or standard alternative methodology measure
40. Further applications: standard alternative methodology measures
41. Publication of information
42. Definitions: data light measure and standard alternative methodology measure

PART 8

Notification of Completed Measures

43. Notification requirements for completed measures
44. Deadline for notification of completed measures
- 44A. Withdrawal of notification

PART 9

Surplus actions

45. Surplus actions

PART 10

Scores

CHAPTER 1

Overview

46. Part 10: interpretation
47. Calculating allowances and giving a score to an ECO4 project or to a qualifying action
48. Calculation of data light measure, exempted project, heating repair and heating replacement allowances

CHAPTER 2

Requirements for a full project score

49. Requirements for a full project score: overview
50. ECO4 projects: minimum requirement for energy efficiency improvement
51. Determination of the post-project SAP band
52. Determination whether a measure is within the data light measure allowance

CHAPTER 3

Calculating full project scores

53. Full project score: overview and determination of post-project SAP rating
54. Publication of a methodology for determining ECO4 project cost savings
55. Full project score: calculation
56. Addition to annual cost savings for projects including basic heating repair or replacement measures
57. Addition to annual cost savings for projects including repairs and replacements of efficient electric storage heaters
58. Project innovation uplift
59. Determination whether general innovation allowance is exhausted
60. Determination whether measures are uplift eligible innovation measures
61. Building fabric repair increase for ECO4 projects
62. Determination of building fabric repair expenditure
63. Determination whether building fabric repair allowance is exhausted
64. Penalty for late completion of qualifying actions
65. Time frame for completion of qualifying actions

CHAPTER 4

Calculating partial project scores

66. Interpretation: definitions related to formulae
67. Partial project score for basic heating repair or replacement measures: calculation
68. Partial project score for repairs and replacements of certain electric storage heaters
69. Determination whether the heating repair or heating replacement allowance is exhausted
70. Partial project score for district heating connections
71. Partial project score for data light measures and standard alternative methodology measures
72. Partial project score for other qualifying actions in an ECO4 project
73. Partial project scores: innovation measure uplift
74. Partial project scores: building fabric repair increase
75. Publication of annual cost savings methodology: data light measures and standard alternative methodology measures
76. Publication of annual cost savings methodology: other qualifying actions

CHAPTER 5

In-fill measures

77. Score for in-fill measures

CHAPTER 6

Surplus actions and ECO3 interim delivery actions

78. Score for surplus action and ECO3 interim delivery actions

PART 11

Exemptions

79. Exemptions

PART 12

Transfers

80. Transfer of measures
81. Transfer of obligations

PART 13

Information and Enforcement

82. Final determination and reporting
83. Information from participants
84. Declaration verification service
85. Enforcement
Signature

Changes to legislation: There are currently no known outstanding effects for the The Electricity and Gas (Energy Company Obligation) Order 2022. (See end of Document for details)

SCHEDULE 1 — Help to heat group eligibility

1. The benefits referred to in the definition of “help to...
2. The condition as to income in paragraph 3 is specified...
3. Where the person claiming child benefit is—
4. For the purposes of paragraph 3, whether a person is...
5. In this Schedule— “1992 Act” means the Social Security Contributions...

SCHEDULE 2 — Domestic premises which are social housing

1. Domestic premises in England and Wales are “social housing” if...
2. Domestic premises in Scotland are “social housing” if the premises...
3. In this Schedule— “relevant interest” means— in respect of premises...
4. For the purposes of this Schedule— (a) in respect of...

Explanatory Note

Changes to legislation:

There are currently no known outstanding effects for the The Electricity and Gas (Energy Company Obligation) Order 2022.
