
STATUTORY INSTRUMENTS

2023 No. 1131

**The Official Controls (Plant Health) (Prior Notification) and
Phytosanitary Conditions (Amendment) Regulations 2023**

PART 2

Amendment to the Phytosanitary Conditions Regulation

CHAPTER 1

Introduction

Amendment to the Phytosanitary Conditions Regulation

2.—(1) The Phytosanitary Conditions Regulation is amended in accordance with regulations 3 to 8.

(2) In regulations 3 to 8, any reference to an Annex is to an Annex to that Regulation.

CHAPTER 2

Regulations coming into force on 24th November 2023

Amendments to Annex 2

3.—(1) In Annex 2 (list of GB quarantine pests)(1), the table in Part A (pests not known to occur in Great Britain) is amended as follows.

(2) Under the heading “C. Insects and mites”, omit entry 62.

(3) Under the heading “F. Viruses, viroids and phytoplasmas”—

(a) after entry 10, insert—

“10A.	Citrus exocortis viroid [CEVD00]”;
-------	------------------------------------

(b) omit entries 11 and 12;

(c) after entry 11 (omitted by paragraph (b)), insert—

“11A.	Columnnea latent viroid [CLVD00]”;
-------	------------------------------------

(d) after entry 17, insert—

“17A.	Pepper chat fruit viroid [PCFVD0]”;
-------	-------------------------------------

(e) after entry 30, insert—

(1) Annex 2 was substituted by [S.I. 2020/1527](#) and amended by [S.I. 2021/641](#), [1171](#), [2022/114](#), [1120](#).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

“30A. Tomato planta macho viroid [TPMVD0]”.

Amendments to Annex 2A

- 4.—(1) The table in Annex 2A (list of provisional GB quarantine pests)(2) is amended as follows.
 (2) Under the heading “A. Fungi and oomycetes”, after entry 1B, insert—

“1BA. *Coleosporium paederiae* Dietal ex Hirats. f. [COLSPA]”.

- (3) Under the heading “B. Insect and mites”—
 (a) after entry 4BB, insert—

“4BC. *Crisicoccus pini* (Kuwana) [DACLPI]”;

- (b) after entry 4C, insert—

“4CA. *Dendrolimus superans* Butler [DENDSU]”;

- (c) after entry 10, insert—

“10A. *Sirex nitobei* Mats. [SIRXNI]”;

- (d) after entry 15, insert—

“15A. *Urocerus japonicus* (F. Sm.) [URCEJA]”.

- (4) Under the heading “C. Viruses, viroids and phytoplasmas”, omit entries 2, 3, 4 and 7.

Amendments to Annex 6

5.—(1) In Annex 6, the table in Part A (list of plants, plant products and other objects from third countries, other than high-risk plants, plant products and other objects, which may not be introduced into Great Britain)(3) is amended as follows.

(2) In entry 1, in column 1 (description of plants, etc.), after “Korea”, insert “, and other than naturally or artificially dwarfed plants of *Chamaecyparis* Spach., *Juniperus* L., or *Pinus* L., either entirely of the species *Pinus thunbergia* Parl. or of *Pinus thunbergia* Parl. grafted on a rootstock of a *Pinus* species other than *Pinus thunbergia* Parl., originating in Japan”.

Amendments to Annex 7

6.—(1) Annex 7 (list of plants, plant products and other objects originating from third countries and the corresponding special requirements for their introduction into Great Britain) is amended as follows.

(2) In Part A (plants, plant products and other objects originating in third countries which may only be introduced into Great Britain if special requirements are met)(4)—

(2) Annex 2A was inserted by S.I. 2020/1527 and amended by S.I. 2021/426, 641, 1171, 2022/114, 1120.

(3) The table in Part A of Annex 6 was substituted by S.I. 2020/1527 and amended by S.I. 2021/641 and 1171.

(4) Annex 7 was substituted by S.I. 2020/1527 and amended by S.I. 2021/136, 426, 641, 1171, 1229, 2022/114, 484, 1090, 1120, 2023/959.

- (a) in the section entitled “Interpretation”, after the definition of “ISPM4”, insert—
- ““ISPM10” means International Standard for Phytosanitary Measures No 10 of December 2015 on requirements for the establishment of pest-free places of production and pest-free production sites, prepared by the Secretariat of the IPPC established by the Food and Agriculture Organisation of the United Nations(5);
- “ISPM14” means International Standard for Phytosanitary Measures No 14 of April 2019 on the use of integrated measures in a systems approach for pest risk management, prepared by the Secretariat of the IPPC established by the Food and Agriculture Organisation of the United Nations(6);
- “ISPM31” means International Standard for Phytosanitary Measures No 31 of December 2015 on methodologies for sampling of consignments, prepared by the Secretariat of the IPPC established by the Food and Agriculture Organisation of the United Nations(7);”;
- (b) in the table—
- (i) in entry 8, in column 2 (origin), omit “Cowpea mild mottle virus”;
- (ii) after entry 33, insert—

“33A. Plants for planting, other than seeds, of <i>Capsicum</i> spp.	Any third country	The plants must be accompanied by:
		(a) an official statement that the plants have been derived from seed complying with the requirements set out in entry 105B, and
		(b) an official statement that:
		(i) the plants originate in an area established by the national plant protection organisation in accordance with the measures specified in ISPM4 as an area that is free from Pepper chat fruit viroid, or
		(ii) the plants have been produced in a site of production where, since the beginning of the last cycle of vegetation, no symptoms of disease caused by Pepper chat fruit viroid have been observed and where the following actions have been taken:
		(aa) staff and items such as tools, machinery, vehicles, vessels and packaging material from other sites producing solanaceous plants and other

(5) Available from the IPPC Secretariat AGPP-FAO, Viale Delle Terme di Caracalla, 00153, Rome, Italy and at <https://www.ippc.int>.

(6) Available from the IPPC Secretariat AGPP-FAO, Viale Delle Terme di Caracalla, 00153, Rome, Italy and at <https://www.ippc.int>.

(7) Available from the IPPC Secretariat AGPP-FAO, Viale Delle Terme di Caracalla, 00153, Rome, Italy and at <https://www.ippc.int>.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

host plants of Pepper chat fruit viroid have been prevented from coming into contact with the site, or

(bb) other appropriate hygiene measures have been taken to prevent infection by staff working, or items used, at other sites producing solanaceous plants and other host plants of Pepper chat fruit viroid.

33B.	Plants for planting, other than seed, of <i>Solanum lycopersicum</i> L. and its hybrids	Any third country	The plants must be accompanied by: (a) an official statement that the plants have been derived from seed complying with the requirements set out in entry 105C, and (b) an official statement that: (i) the plants originate in an area established by the national plant protection organisation in accordance with the measures specified in ISPM4 as an area that is free from Citrus exocortis viroid, Columnea latent viroid, Pepper chat fruit viroid and Tomato planta macho viroid, or (ii) the plants have been produced in a site of production where, since the beginning of the last cycle of vegetation, no symptoms of disease caused by Citrus exocortis viroid, Columnea latent viroid, Pepper chat fruit viroid or Tomato planta macho viroid have been observed and where the following actions have been taken: (aa) staff and items such as tools, machinery, vehicles, vessels and packaging material from other sites producing solanaceous plants and other host plants of Citrus exocortis viroid, Columnea latent viroid, Pepper chat fruit viroid or Tomato planta macho viroid have been prevented from coming into contact with the site, or (bb) other appropriate hygiene measures have been taken to prevent infection by staff working, or items used, at other sites producing
------	---	-------------------	---

solanaceous plants and other host plants of Citrus exocortis viroid, Columnea latent viroid, Pepper chat fruit viroid or Tomato planta macho viroid.”;

(iii) after entry 42A(8) insert—

“42B.	<p>Naturally or artificially dwarfed plants of <i>Chamaecyparis</i> Spach., <i>Juniperus</i> L., or <i>Pinus</i> L.,</p> <p>but in the case of <i>Pinus</i> L., either entirely of the species <i>Pinus parviflora</i> Sieb. & Zucc. (<i>Pinus pentaphylla</i> Mayr) or <i>Pinus thunbergii</i> Parl., or of—</p> <p>(a) <i>Pinus parviflora</i> Sieb. & Zucc. grafted on a rootstock of a <i>Pinus</i> species other than <i>Pinus parviflora</i> Sieb. & Zucc., or</p> <p>(b) <i>Pinus thunbergii</i> Parl., grafted on a rootstock of a <i>Pinus</i> L. species other than <i>Pinus thunbergii</i> Parl.</p>	Japan	<p>The plants must be accompanied by an official statement that:</p> <p>(a) they are naturally or artificially dwarfed plants:</p> <p>(i) of <i>Chamaecyparis</i> Spach.,</p> <p>(ii) of <i>Juniperus</i> L., or</p> <p>(iii) of <i>Pinus</i> L.,</p> <p>but in the case of <i>Pinus</i> L., they are one of the following:</p> <p>(aa) entirely of the species <i>Pinus parviflora</i> Sieb. & Zucc. (<i>Pinus pentaphylla</i> Mayr),</p> <p>(bb) entirely of the species <i>Pinus thunbergii</i> Parl.,</p> <p>(cc) of <i>Pinus parviflora</i> Sieb. & Zucc. grafted on a rootstock of a <i>Pinus</i> L. species other than <i>Pinus parviflora</i> Sieb. & Zucc. which has borne no shoots and originated in Japan, or</p> <p>(dd) of <i>Pinus thunbergii</i> Parl., grafted on a rootstock of a <i>Pinus</i> L. species other than <i>Pinus thunbergii</i> Parl. which has borne no shoots and originated in Japan,</p> <p>(b) prior to export they have been grown, held and trained for at least two consecutive years in officially registered nurseries which are subject to an officially supervised control regime,</p> <p>(c) in the case of <i>Juniperus</i> L. plants:</p>
-------	---	-------	---

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(i) the plants of *Juniperus* L. and any plants of *Chaenomeles* Lindl., *Crataegus* L., *Cydonia* Mill., *Malus* Mill., *Photinia* Ldl. and *Pyrus* L. grown in the two years prior to export in the plant nurseries mentioned in point (b) for naturally or artificially dwarfed plants, and

(ii) the immediate vicinity of the plants referred to in sub-paragraph (i),

have been officially inspected at least six times a year at appropriate intervals and found to be free from the following: *Aschistonyx eppoi* Inouye, *Gymnosporangium asiaticum* Miyabe ex Yamada and *G. yamadae* Miyabe ex Yamada, *Oligonychus perditus* Pritchard et Baker, *Popillia japonica* Newman, and any other GB quarantine pest or provisional GB quarantine pest,

(d) in the case of *Chamaecyparis* Spach. plants:

(i) the plants of *Chamaecyparis* Spach. and of *Pinus* L. grown in the nurseries mentioned in point (b) for naturally or artificially dwarfed plants, and

(ii) the immediate vicinity of the plants referred to in sub-paragraph (i),

have been officially inspected at least six times a year at appropriate intervals and found to be free from *Popillia japonica* Newman and any other GB quarantine pest or provisional GB quarantine pest,

(e) in the case of *Pinus parviflora* Sieb. & Zucc. plants:

(i) the plants of *Pinus* L. and of *Chamaecyparis* Spach. grown in the nurseries mentioned in point (b) for naturally or artificially dwarfed plants, and

(ii) the immediate vicinity of the plants referred to in sub-paragraph (i),

have been officially inspected, at least six times a year at appropriate intervals and found to be free from the following: *Bursaphelenchus xylophilus* (Steiner and Bühner) Nickle et al., *Coleosporium paederiae* Dietel ex Hirats. f., *Crisicoccus pini* (Kuwana), *Cronartium kurilense* (Dietel) Y. Ono, *Cronartium quercuum* (Berk.) Miyabe ex Shirai, *Dendrolimus sibiricus* Chetverikov, *Dendrolimus spectabilis* (Butler), *Dendrolimus superans* Butler, *Monochamus* spp., *Pissodes nitidus* Roelofs, *Popillia japonica* Newman, *Pseudocercospora pini-densiflorae* (Hori & Nambu) Deighton, *Thecodiplosis japonensis* Uchida & Inouye, and any other GB quarantine pest or provisional GB quarantine pest,

(f) in the case of *Pinus thunbergii* Parl plants:

(i) the plants of *Pinus* L. and of *Chamaecyparis* Spach. grown in the nurseries mentioned in point (b) for naturally or artificially dwarfed plants, and

(ii) the immediate vicinity of the plants referred to in sub-paragraph (i),

have been officially inspected at least six times a year at appropriate intervals and found to be free from the following: *Bursaphelenchus xylophilus* (Steiner and Bühner) Nickle et al., *Coleosporium asterum* (Dietel) Sydow & P. Sydow, *Coleosporium phellodendri* Komarov, *Crisicoccus pini* (Kuwana), *Cronartium orientale* Kaneko, *Dendrolimus sibiricus* Chetverikov, *Dendrolimus spectabilis* (Butler), *Dendrolimus superans* Butler, *Dothistroma septosporum* (Dorogin) Morelet, *Fusarium circinatum* Nirenberg & O'Donnell, *Monochamus* spp. (non-European populations), *Pissodes nitidus* Roelofs, *Popillia japonica* Newman, *Pseudocercospora pini-densiflorae* (Hori & Nambu) Deighton, *Sirex nitobei* Mats.,

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Thecodiplosis japonensis Uchida & Inouye, *Urocerus japonicus* (F. Sm), and any other GB quarantine pest or provisional GB quarantine pest,

(g) the plants intended for Great Britain have at least during the period referred to in point (b):

(i) been potted in pots which are placed either on shelves at least 50cm above ground or on concrete flooring which is well maintained and free from debris,

(ii) been found to be free, in the inspections referred to in point (c) to (f), from the pests specified in point (c) to (f),

(iii) in the case of plants of *Pinus parviflora* Sieb. & Zucc. or *Pinus thunbergii* Parl. grafted on a rootstock of another *Pinus* L. species, been grafted on a rootstock derived from sources officially approved as healthy material, and

(iv) been made recognisable with a marking or a traceability code, exclusive for each individual plant and notified to the national plant protection organisation of Japan, enabling the identification of the officially registered nursery and the year of potting, and

(h) the plants have been traceable from the time of their removal from the nursery until the time of loading for export, the tracing assured by sealing of transport vehicles or appropriate alternatives.

The following additional requirements must be complied with.

(1) The annual lists of the registered nurseries must be made available to the national plant protection organisation of the United Kingdom by 1st March each year. Those lists must include the number of plants grown in each of these nurseries which are deemed

suitable for dispatch to Great Britain under the conditions laid down.

(2) The total number of plants dispatched to Great Britain must not exceed the quantities which have been approved by the national plant protection organisation of the United Kingdom in advance, having regard to the availability of quarantine facilities.

(3) In the case of plants of *Juniperus* L., the plants may only be imported into Great Britain during the period beginning on 1st November each year and ending on 31st March the following year.

(4) Any detection of the pests specified in points (c) to (f) in the inspections carried out pursuant to those points must be officially recorded, and the records must be kept available to the national plant protection organisation of the United Kingdom, upon its request.

(5) The detection of any pests which are specified in points (c) to (f) disqualifies the nursery from the status of officially registered nursery and from exporting the plants specified in column 1 to Great Britain. The national plant protection organisation of the United Kingdom must be informed immediately of such detection. In such case, the registration can be renewed only in the following year.

(6) Following their import into Great Britain, the plants must be subject, before their release, to official post-entry detention in a confinement facility or quarantine station of not less than three months of active growth in the case of *Pinus* L. and *Chamaecyparis* Spach. plants, and for a period including the active growth season from 1st April until 30th June in the case of *Juniperus* L. plants, and must have been found to be free, during this post-entry detention, from any pests listed in points (c) to (f). Particular attention must be given

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

by the competent authority or the professional operators to preserve for each plant the marking or traceability code referred to in point (g)(iv).

(7) Any lot in which plants have not been found to be free, during the post-entry detention, from the pests of concern must be immediately destroyed under official supervision.

(8) If any contamination by the pests of concern is confirmed during the post-entry detention period, the relevant nursery in Japan must be treated as disqualified from its status as an officially registered nursery. The national plant protection organisation of the United Kingdom must immediately inform the national plant protection organisation of Japan of the contamination and the disqualification.

(9) The phytosanitary certificate under the heading “Additional declaration” must indicate:

- the name or names of the officially registered nursery or nurseries;
- the markings or traceability codes referred to in point (g)(iv), as far as they enable identification of the registered nursery and the year of potting;
- the specification of the last treatment applied, prior to dispatch.”;

(iv) omit entry 92;

(v) in entry 94, in column 3 (special requirements), in the first unnumbered paragraph—

(aa) in point (c)(i), after “production”, in the first place where it occurs, insert “*”,

(bb) in point (c)(ii), for the words from “, which” to the end substitute “and prior to export, including a visual examination with an intensity to enable at least the detection of a 2% level of infestation, with a level of confidence of 95% in accordance with the measures specified in ISPM31 and including destructive sampling in case of symptoms”;

(cc) for “and” after point (c)(ii), substitute “or”;

(dd) omit point (c)(iii) and the “or” after it;

(ee) for point (d) substitute—

“(d) an official statement:

(i) that they have been produced in a site(s) of production* approved by the national plant protection organisation of the country of origin,

(ii) that they have been subjected to an effective systems approach** in accordance with the measures specified in ISPM14 or an effective stand-alone post-harvest treatment** to ensure freedom from *Thaumatotibia leucotreta* (Meyrick), and

(iii) that, prior to export, they have been subjected to official inspections for the presence of *Thaumatotibia leucotreta* (Meyrick), with an intensity to enable at least the detection of a 2% level of infestation, with a level of confidence of 95% in accordance with the measures specified in ISPM31 and including destructive

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

sampling in case of symptoms.”;

- (vi) in entry 94, in column 3, in the second unnumbered paragraph preceded by an asterisk, after “area(s)”, insert “, place(s) of production or site(s) of production”;
- (vii) in entry 94, in column 3, in the fourth unnumbered paragraph—
 - (aa) after the second indented sub-paragraph insert—

“-the official statement referred to in point (c) unless the national plant protection organisation of the country of origin has previously provided the national plant protection organisation of the United Kingdom with written details of the place(s) of production,”;

- (bb) in the last indented sub-paragraph, for “treatment or approach” substitute “site(s) of production and the systems approach or post-harvest treatment”;
- (viii) in entry 100, in column 3, in the first unnumbered paragraph—
 - (aa) in the words before point (c)(i), after “statement”, insert “, which includes information on traceability,”;
 - (bb) in point (c)(i), for the words from “its immediate” to the end substitute “its immediate vicinity, and they have been subjected to effective treatments to ensure freedom from the pest and an inspection of a representative sample of fruits prior to export which has shown the fruits to be free of that pest”;
- (ix) in entry 102A, in column 3, at the end insert—

“A phytosanitary certificate may not include the official statement referred to in point (b) unless the national plant protection organisation of the country of origin has previously provided the national plant protection organisation of the United Kingdom

with written details of the area or areas.”;

(x) after entry 105A insert—

- | | | | |
|---|-------------|-------|--|
| “105B. Seeds of <i>Capsicum</i> spp. | Any country | third | The seeds must be accompanied by an official statement that they:

(a) originate in an area* established by the national plant protection organisation in accordance with the measures specified in ISPM4 as an area that is free from Pepper chat fruit viroid,

(b) are derived from plants grown throughout their life in a place of production** established by the national plant protection organisation in accordance with ISPM10 as a place of production that is free from Pepper chat fruit viroid and verified through official inspections and, where appropriate, testing, or

(c) have been subjected to official testing for Pepper chat fruit viroid on a statistically based sample in accordance with ISPM31 and using an appropriate method and have been found, in this test, to be free from this pest.

* The name(s) of the area(s) must be included in the phytosanitary certificate under the heading “Additional declaration”.

** The name(s) of the place(s) of production must be included in the phytosanitary certificate under the heading “Additional declaration”. |
| 105C. Seeds of <i>Solanum lycopersicum</i> L. and its hybrids | Any country | third | The seeds must be accompanied by an official statement that they:

In the case of wood declared to
comply with the requirements listed
in point (c):

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) the wood must be produced, handled or stored in a facility**** which fulfils all the following requirements:

(i) it is officially approved by the relevant national plant protection organisation's inspection service pursuant to its certification programme for the pest *Agrilus planipennis* Fairmaire,

(ii) it is registered in a database published by the relevant inspection service,

(iii) it is audited *****at least once per month by the relevant national plant protection organisation's inspection service, or an agency approved by that inspection service, which concludes in each audit that the facility has treated wood as per the requirements listed in point (c),

(iv) it uses equipment for the treatment of the wood which has been calibrated consistently with the equipment's manual of operation,

(v) it keeps records of its procedures for verification by the relevant national plant protection organisation's inspection service, or an agency approved by that inspection service, including the duration of treatment, temperatures during treatment and, for each specific bundle to be exported, the compliance check and final moisture content.

****The name of the facility or facilities must be included in the phytosanitary certificate under the heading "Additional declaration".

*****Where these audits are performed by an agency approved by the relevant national plant protection organisation's inspection service, the relevant national plant protection

organisation’s inspection service must carry out six-monthly audits of this work. The six-monthly audits must include the verification of the procedures and documentation of the agency and audits at approved facilities.

(2) Each bundle of wood must visibly display both the unique bundle number and a label with the words “HTKD” or “Heat Treated-Kiln Dried”. That label must be issued by, or under the supervision of, a designated officer of the approved facility after verifying that the processing requirements set out in point (c) and the requirements for facilities set out in point (1) have been complied with. The bundle number(s) corresponding to each specific bundle being exported must be included in the phytosanitary certificate under the heading “Additional declaration”.

(3) The wood must have been inspected before export by the relevant national plant protection organisation’s inspection service, or an agency approved by that inspection service, to ensure that the requirements laid down in point (c) and point (2) are met.”

CHAPTER 3

Regulations coming into force on 2nd May 2024

Amendments to Annex 2A

7.—(1) The table in Annex 2A (list of provisional GB quarantine pests) is amended as follows.

(2) Under the heading “A. Fungi and oomycetes”, after entry 5, insert—

“5A.	<i>Raffaelea lauricola</i> Harrington, Fraedrich & Aghayeva [RAFFLA]
5B.	<i>Raffaelea quercivora</i> Kubono & Ito [RAFFQU]”.

(3) Under the heading “B. Insects and mites”, after entry 7(9), insert—

“7B.

Platypus quercivorus (Murayama) [PLTPQU]”.

Amendments to Annex 7

8.—(1) Annex 7 (list of plants, plant products and other objects originating from third countries and the corresponding special requirements for their introduction into Great Britain) is amended as follows.

(2) In the table in Part A (plants, plant products and other objects originating in third countries which may only be introduced into Great Britain if special requirements are met)—

- (a) in entry 20—
 - (i) for the words in column 1 (description of plants, etc.), substitute “Plants for planting, other than seeds, of *Solanum tuberosum* L.”;
 - (ii) in column 3 (special requirements)—
 - (aa) for “tubers”, in the first and second place where it occurs, substitute “plants”;
 - (bb) in point (d)(ii), after “appropriate times and”, insert “, in the case of tubers,”;
 - (cc) in point (d)(iii), at the beginning, insert “in the case of tubers,”;
- (b) in entry 21—
 - (i) in column 1, for “Tubers of *Solanum tuberosum* L., for planting” substitute “Plants for planting, other than seeds, of *Solanum tuberosum* L.”;
 - (ii) in column 3—
 - (aa) for “tubers” substitute “plants”;
 - (bb) after “EU Member State”, in both places where it occurs, insert “, Liechtenstein”;
- (c) in entry 22, in column 1, after “entry 20” insert “or 21”;
- (d) in entry 29, in column 3, after “entry 20” insert “or 21”;
- (e) in entry 83A, for the words in column 2 (origin) substitute “Any third country”.

(3) In the table in Part B (plants, plant products and other objects originating in third countries which are subject to emergency measures and may only be introduced into Great Britain if special requirements are met)(10), in entry 6, in column 3 (special requirements)—

- (a) in the first unnumbered paragraph—
 - (i) omit the “or” after point (a);
 - (ii) at the end of point (b)(ii), insert—
 - “; or
 - (c) in the case of any seeds which were harvested before 15th August 2020, an official statement stating that “The seeds were harvested before 15th August 2020 and the seeds have undergone official sampling and testing for Tomato brown rugose fruit virus and have been found, according to those tests, to be free from that pest.”;
- (b) in the third unnumbered paragraph, for “point (b)(ii)” substitute “points (b)(ii) and (c)”.

(10) Part B of Annex 7 was substituted by [S.I. 2020/1527](#) (as amended by [S.I. 2020/1631](#)), and amended by [S.I. 2021/136](#), [641](#), [2022/1120](#).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.
