Schedule 7

Information provisions

Part 2

Information relating to vans, ZE SPVs of category N1 and certain ZE SPVs of category N2

6. The information referred to in [article 73\(1\)\(b\)](#) and [article 74\(3\)\(b\)](#) is—
- (a) the manufacturer;
 - (b) the type-approval number and, where applicable, extension;
 - (c) the type, variant and version (where applicable);
 - (d) the make and commercial name;
 - (e) the category of vehicle type-approved;
 - (f) the category of vehicle registered;
 - (g) the specific emissions of CO₂;
 - (h) the mass in running order;
 - (i) the technically permissible maximum laden mass;
 - (j) the footprint: the wheel base, the track width of the steered axle and the track width of the other axle;
 - (k) the fuel type and fuel mode;
 - (l) the engine capacity;
 - (m) the electric energy consumption;
 - (n) the code for any eco-innovation and the CO₂ emissions reduction due to that eco-innovation;
 - (o) the vehicle identification number;
 - (p) the test mass;
 - (q) the vehicle family identification number;
 - (r) the electric range, where applicable;
 - (s) the date of first registration;
 - (t) the maximum net power;
 - (u) the road-load co-efficients: f₀, f₁ and f₂;
 - (v) the frontal area;
 - (w) the tyre rolling resistance class.
