2023 No. 873

The Electricity and Gas (Energy
Company Obligation) Order 2023

PART 5

ECO4A qualifying actions

CHAPTER 5

Additional requirements for measures

Additional requirements to be met by heating control measures

- 23.** A heating control measure meets the requirements of this article if it—
- (a) is installed at the same domestic premises where an ECO4A qualifying action that is an insulation measure has been installed (“the related insulation measure”);
 - (b) is completed—
 - (i) on the same day as, or not more than three months after, the day on which the related insulation measure is completed; and
 - (ii) after the pre-installation energy efficiency assessment is performed; and
 - (c) is promoted by the same participant who promoted the related insulation measure.
