

### SCHEDULE 3

#### Information required to be published

##### *Data*

- 8.** In relation to each monitoring station—
  - (a) for each period in which a fixed measurement of PM<sub>2.5</sub> was taken and ratified, the measured value, or the mean of the measured values if more than one measurement was taken and ratified;
  - (b) the annual data capture rate;
  - (c) the annual mean PM<sub>2.5</sub> level in each year.
- 9.** PEIbase (that is, the Population Exposure Indicator, as defined in regulation 10, for the baseline period as defined in regulation 7).
- 10.** The Population Exposure Indicator for the most recent year for which it has been calculated.
- 11.** The result of the calculation in paragraph 2(e) of Schedule 1 (that is, the percentage of PEIbase which represents the cumulative sum of annual changes to the Population Exposure Indicator since the baseline period), for the most recent year for which it has been calculated.
