

SCHEDULE 4

Remediation

PART 1

Remediation of damage to natural resources other than land

Choice of remediation

- 6.—(1) The remediation options must be evaluated using best available methods, and based on—
- (a) the effect of each option on public health and safety;
 - (b) the cost of implementing the option;
 - (c) the likelihood of success of each option;
 - (d) the extent to which each option will prevent future damage, and avoid collateral damage as a result of implementing the option;
 - (e) the extent to which each option benefits each component of the natural resource or service;
 - (f) the extent to which each option takes account of relevant social, economic and cultural concerns and other relevant factors specific to the locality;
 - (g) the length of time it will take for the restoration of the environmental damage to be effective;
 - (h) the extent to which each option achieves the restoration of the site of the environmental damage; and
 - (i) the geographical linkage to the damaged site.

Changes to legislation:

There are currently no known outstanding effects for the The Environmental Damage (Prevention and Remediation) (Wales) Regulations 2009, Paragraph 6.
