The Air Quality Standards (Wales) Regulations 2010

PART 5

Plans

Air quality plans

20.—(1) Where the level of sulphur dioxide, nitrogen dioxide, benzene, carbon monoxide, lead or PM₁₀ in ambient air exceeds any of the limit values in Schedule 1 in any zone, or where the level of PM_{2.5} in ambient air exceeds the relevant target value in Schedule 2 in any zone, then, subject to paragraph (2), the Welsh Ministers must draw up and implement an air quality plan to achieve the relevant limit value or target value in that zone.

(2) Where the Welsh Ministers have designated zones within which limit values for PM₁₀ are exceeded due to the re-suspension of particulates following winter sanding or salting,^{F1} ... the Welsh Ministers' duty under paragraph (1) applies to those zones only in so far as the exceedances of those limit values are attributable to PM₁₀ sources other than winter sanding or salting.

(3) Where the level of ozone in ambient air exceeds any of the target values for ozone in Schedule 2 in any zone, the Welsh Ministers must, if appropriate, draw up and implement an air quality plan to achieve the relevant target value unless the measures necessary to achieve that target value would entail disproportionate cost.

(4) An air quality plan under paragraph (1) or (3) must include measures intended to ensure compliance with any relevant limit value within the shortest possible time.

(5) If, at any time before 31 December 2014, the level of PM_{2.5} in ambient air in any zone exceeds the level calculated by applying the margin of tolerance for that pollutant in Schedule 1 to the relevant limit value in that Schedule, the Welsh Ministers must draw up and implement an air quality plan to achieve that limit value in that zone.

(6) An air quality plan must include the information listed in Schedule 6.

[^{F2}(7) Wherever possible, air quality plans must be consistent with—

- (a) the Transitional National Plan, which has the meaning given in regulation 2(1) of the Large Combustion Plants (Transitional National Plan) Regulations 2015;
- (b) a national air pollution control programme drawn up in accordance with regulation 9 of the National Emission Ceilings Regulations 2018;
- (c) an action plan drawn up in accordance with Part 4 of the Environmental Noise (Wales) Regulations 2006.]

(8) Where an air quality plan is required in relation to more than one pollutant in any zone, the Welsh Ministers must, where appropriate, draw up and implement an integrated plan for that zone in relation to all pollutants concerned.

[^{F3}(9) The air quality plan must include an assessment of the need to apply lower emission limit values for individual medium combustion plants than those set out in [Directive 2015/2193/EU](#) of

the European Parliament and of the Council of 25 November 2015 on the limitation of emissions of certain pollutants into the air from medium combustion plants (“the Medium Combustion Plant Directive”) provided that, in the opinion of the Welsh Ministers, applying such emission limit values would effectively contribute to a noticeable improvement of air quality.

(10) In considering whether to impose lower emission limit values, the Welsh Ministers must take into account the results of the information exchange referred to in Article 6(10) of the Medium Combustion Plant Directive.

(11) In this regulation—

“emission limit values” has the meaning given in paragraph 5 of Schedule 25A to the Environmental Permitting (England and Wales) Regulations 2016, and

“medium combustion plants” has the meaning given in paragraph 2(1) of Schedule 25A to those Regulations.]
