

SCHEDULE 4

Exceptions

PART 1

Supply of seed other than by way of marketing

Early multiplication of seed

1.—(1) Seed of an unlisted variety may be supplied by a person licensed to market seed for multiplication for progression through the different generation categories of seed.

(2) Each generation of seed supplied must have reached the standard required for certification.

(3) The seed produced must remain the property of the licensed person, and may not be marketed.

Seed as grown

2. Seed as grown may be sent by the grower for cleaning prior to certification, and to a testing or inspection body for the purposes of certification.

Farm saved seed

3. Farm-saved seed may only be used by the person who grew it, and may not be marketed or supplied to any other person, but it may be sent for cleaning provided that the person who cleans it returns all the seed to the holding where it was grown.
