EXPLANATORY NOTE

(This note is not part of the Order)

This Order amends the Plant Health (Wales) Order 2006 (S.I.2006/1643 (W.158)) (“the principal Order”) to include emergency measures to prevent the introduction and spread of *Chalara fraxinea* T. Kowalski including its teleomorph *Hymenoscyphus pseudoalbidus*, a cause of ash dieback. In particular, the Order:

- (a) prohibits the landing in or the spread within Wales of *Chalara fraxinea* T. Kowalski (article 2(7));
- (b) prohibits the landing in or the movement within Wales of plants intended for planting of *Fraxinus* L. which are infected with *Chalara fraxinea* T. Kowalski (article 2(8));
- (c) imposes additional requirements on the landing in or movement within Wales of plants intended for planting of *Fraxinus* L. (article 2(9) to (12)); and
- (d) imposes additional requirements on the consignment from Wales to other parts of the European Union of plants intended for planting of *Fraxinus* L. (article 2(13)).

Emergency measures to prevent the introduction and spread of *Chalara fraxinea* T. Kowalski were introduced by the Plant Health (Forestry) (Amendment) Order 2012 (S.I. 2012/2707). The competent authority for those measures is the Forestry Commissioners. This Order enables the Welsh Ministers also to act as competent authority in relation to Wales in respect of measures to prevent the introduction and spread of *Chalara fraxinea* T. Kowalski.

The Order also confers powers on the Welsh Ministers to grant licences for trial or scientific purposes or for work on varietal selections in relation to certain plant pests (article 2(5)).

The Welsh Ministers' Code of Practice on the carrying out of Regulatory Impact Assessments was considered in relation to this Order. As a result, it was not considered necessary to carry out a regulatory impact assessment as to the likely costs and benefits of complying with this Order.
