(3) If a notice under this Order is to be served on the occupier or other person in charge of premises, and the last known place of abode or address of that person cannot be ascertained after reasonable enquiry, the notice may be served on that person by addressing it to “the occupier” and leaving it conspicuously affixed to an object on the premises for a period of seven days.

(4) A notice under this Order may—

Information as to compliance with notices

36. A notice served under this Order may require the person on whom the notice is served to inform the inspector immediately whether the requirements of the notice have been complied with and, if they have, to provide the inspector with details of the steps taken to comply with those requirements.

Failure to comply with a notice

37.—(1) If a person fails to comply with a notice served on that person under this Order, an inspector may enter any affected premises at all reasonable times to take or cause any steps to be taken which the inspector considers necessary to ensure compliance with the notice or to remedy the consequences of the failure to carry them out.

(2) An inspector acting under paragraph (1) must, if requested to do so, show evidence of their authority to act.

(3) Paragraph (1) does not apply in relation to any premises which are used wholly or mainly as a private dwelling, unless 24 hours' notice of the intended entry has been given to the occupier.

(4) Paragraph (1) does not affect any right of entry conferred by a warrant issued by a justice of the peace.

- (a) there are reasonable grounds to enter those premises; and
- (b) any of the conditions in paragraph (2) are met.

(2) The conditions are that—

- (a) entry to the premises has been, or is likely to be, refused and notice of the intention to apply for a warrant has been given to the occupier;
- (b) asking for admission to the premises, or giving notice of the intention to apply for a warrant, would defeat the object of the entry;
- (c) entry is required urgently;

(3) A warrant is valid for one month.

(4) An inspector who enters any unoccupied premises must leave them as effectively secured against unauthorised entry as they were before entry.

SCHEDULE 13

Article 39(3)

Special measures for the control of Potato wart disease

- 1. A plot is to be regarded as contaminated for the purposes of this Schedule if Potato wart disease is confirmed to be present on at least one plant from the plot as a result of an official test.
- 2. An inspector must demarcate a contaminated plot and a safety zone around that plot which is large enough to ensure the protection of the surrounding areas.
- 3. A notice under article 32 may require any potato tubers or haulms which are present on a contaminated plot or which come from such a plot to be treated in such a way that the Potato wart disease present on them is destroyed.
- 4. Where an inspector is satisfied that any potato tubers or haulms are contaminated with Potato wart disease and the inspector cannot determine whether those tubers or haulms have been present on a contaminated plot, the inspector may serve a notice under article 32 which requires the whole batch containing the affected tubers or haulms to be treated in such a way that there is no risk of Potato wart disease spreading.
- 5. Where a contaminated plot is demarcated under paragraph 2—
 - (a) no potatoes may be grown on it; and
 - (b) no plants intended for transplanting may be grown, stored or moved on it.
- 6. No potatoes may be grown in a safety zone demarcated under paragraph 2 unless an inspector is satisfied that they are of a variety which is resistant to the races of Potato wart disease found on the contaminated plot to which the safety zone relates.
- 7. A potato variety is to be considered resistant to a particular race of Potato wart disease for the purposes of paragraph 6 where that variety reacts to contamination by the pathogenic agent of that race in such a way that there is no danger of secondary infection.
- 8. Where an inspector is satisfied that Potato wart disease is no longer present on a plot demarcated under paragraph 2 or on its associated safety zone, the inspector must revoke that demarcation.

SCHEDULE 14

Interpretation and application of Schedule 14

1. This Schedule applies, where following an official investigation for the purposes of Article 4 of Directive [2007/33/EC](#) or an official survey for the purposes of Article 6 of that Directive, the Welsh Ministers confirm that a field is infested with a European population of Potato cyst nematode.

2. In this Schedule, “demarcated field” (“*cae sydd wedi ei ddarnodi*”) means a field in respect of which a notice served under paragraph 3 is in force.

4. The notice may not be withdrawn until it is confirmed, pursuant to the re-sampling and testing measures set out in Section III(C) of Annex III to Directive [2007/33/EC](#), that Potato cyst nematode is no longer present in the field.

Prohibition on planting of potatoes

5. Unless authorised to do so by an inspector, no person may—

- (a) plant in a demarcated field any potatoes that are intended for the production of seed potatoes; or
- (b) plant or store in a demarcated field any plant listed in Annex I to Directive [2007/33/EC](#) which is intended for planting.

6. An inspector may authorise the planting in a demarcated field of any plant which is listed in point 2 of Annex I to Directive [2007/33/EC](#).

7. An authorisation under paragraph 6 must be by notice and must contain the measures set out in Section III(A) of Annex III to Directive [2007/33/EC](#).

Suppression of Potato cyst nematode

8. No person may plant in a demarcated field any potatoes that are not intended for the production of seed potatoes unless that person has taken all reasonable steps to suppress Potato cyst nematode in that field.

Controls on contaminated seed potatoes etc.

9. No person may plant any seed potatoes or any plants listed in point 1 of Annex I to Directive [2007/33/EC](#) which come from a demarcated field, or have been in contact with soil from a demarcated field, unless authorised to do so by an inspector.

10. An authorisation under paragraph 9 must be by notice and must contain the measures which the inspector considers necessary to decontaminate those seed potatoes or plants.

Part 1 is introductory and includes definitions. Article 2(5) provides for references to the European Union instruments listed in that provision to be read as references to those instruments as amended from time to time.

Part 2 applies to plant pests and relevant material coming from countries outside the European Union, including relevant material from third countries coming via another part of the European Union where the Welsh Ministers have agreed to carry out certain checks on that material.

“Relevant material” is defined in article 2(1).

Article 5 prohibits the landing in Wales of certain plant pests and relevant material and imposes restrictions on other relevant material which may be imported into Wales from third countries.

Article 6 requires importers of controlled imports of relevant material to provide the Welsh Ministers with advance notice of their landing and article 7 requires those imports to be accompanied by the appropriate phytosanitary certificate. Articles 10 to 12 prohibit the removal of this relevant material from an area of plant health control until an inspector has inspected the material and is satisfied that the material can be discharged.

Article 8 exempts certain relevant material which is brought into Wales in a person's baggage from the requirements in article 5 and other related requirements.

Part 3 applies to plant pests and relevant material from the European Union (whether originating in the European Union or in third countries). Article 21 requires certain relevant material to be accompanied by a plant passport when it is moved within Wales or consigned to another part of the European Union.

Part 4 imposes a requirement on plant traders to be registered in respect of any activity which they carry out and which is regulated by the Order (articles 25 to 28) and makes provision for the Welsh Ministers to authorise plant traders to issue plant passports (article 29).

Part 7 imposes additional requirements in relation to certain solanaceous species (potatoes and tomatoes).

Part 8 makes provision for the Welsh Ministers to grant licences authorising activities which would otherwise be prohibited by the Order.

Part 10 contain offences for non-compliance with the Order and with requirements imposed under article 46. Article 47 sets out the penalties for the offences. (Contravention of any prohibition on
