2021 No. 77

The Water Resources (Control of Agricultural
Pollution) (Wales) Regulations 2021

PART 4

Controlling the spreading of nitrogen fertiliser

Controlling how nitrogen fertiliser is spread

15.—(1) Subject to paragraph (2), any person spreading slurry must use spreading equipment with a low spreading trajectory, that is, below 4 metres from the ground.

(2) Spreading equipment with a spreading trajectory of more than 4 metres from the ground may be used on land that has a low run off risk where such equipment can achieve an average slurry application rate of not more than 2 mm per hour when it is operating continuously.

(3) Any person spreading nitrogen fertiliser must do so in as accurate a manner as possible.

Commencement Information

II [Reg. 15](#) in force at 1.4.2021, see [reg. 1\(3\)](#)

Changes to legislation:

There are currently no known outstanding effects for the The Water Resources (Control of Agricultural Pollution) (Wales) Regulations 2021, Section 15.
