**PART 2**

**Transparency**

**Below-threshold tender notices**

**25.**—(1) This regulation sets out other information which must be included in a below-threshold tender notice published under section 87(1) of the 2023 Act.

(2) The information is—

- (a) the contracting authority information,
- (b) the title of the procurement,
- (c) the unique identifier for the procurement,
- (d) where the contract is being awarded by reference to a dynamic market, the unique identifier for that dynamic market,
- (e) where the contract will be awarded under an appropriate part of a dynamic market, the distinct number given to that part by the contracting authority,
- (f) the contract subject-matter,
- (g) the estimated value of the contract,
- (h) how tenders may be submitted and the date by when they must be submitted,
- (i) whether the notice is being used to invite tenders for a special regime contract and, if so, whether that contract is a light touch contract,
- (j) whether the contracting authority considers that the contract or any lot forming part of the contract may be particularly suitable to be awarded—
  - (i) to a small and medium-sized enterprise, or
  - (ii) to a non-governmental organisation that is value-driven and which principally reinvests its surpluses to further social, environmental or cultural objectives,
- (k) an explanation of the criteria against which the award of the contract will be assessed, and
- (l) a description of any conditions of participation in relation to the award of the contract.

(3) Nothing in this regulation prevents a contracting authority from publishing other information that relates to the same procurement in the notice.

(4) In this regulation “below-threshold tender notice” has the meaning given by section 87(5) of the 2023 Act.
